Being human in the 21st century

The 21st Century has been defined as the age of the Anthropocene, where everyone has the power to generate unprecedented impacts on the environment and society: we face **new challenges** linked to our mental health, social inequality and job automation. What does it mean to **be human in the 21st Century**? How to couple technological development with human development? These are just some of the topics we will explore during our meetings.

Thursday 7th April

The human ecology

Speaker: **Alessandro Panerai**, Director @ Heritage Holdings and **Federica Irene Falomi** Associate Programme Officer @ UN Technology Bank for Least Developed Countries

Thursday 28th April

Opportunities and threats of the space economy

Speaker: **Raffaele Mauro**, Co-founder and Partner @ Primo Ventures and **Gabriele De Canio** Transformation Officer @ European Space Agency

Thursday 12th May

The ethical challenges of AI and metaverse

Speaker: **Andrea Bertolini**, Assistant Professor @ Scuola Superiore Sant'Anna and Director @ EURA (European Centre of Excellence on the Regulation of Robotics & AI) and **Giuseppe Roberto Marseglia** Ceo @ Sphaera
